

TECHNICAL DATA SHEET**ACRYL RESIN HQR**

The identification code: E-ZAHQR

Line: EXLAK

PRODUCT DESCRIPTION

High-quality binder which merges pigments. When mixed with pigments, form a two-component topcoat commonly known as acrylic varnish. It is made of acrylic and polyurethane resins and a range of solvents suspending the pigment, giving in a result coloured topcoat. Its surface has excellent flow, high gloss and appropriate hardness. Acryl resin HQR is used for the manufacture of high-quality paints and varnishes. It is compatible with pigment systems available in our market.

USAGE

Use when creating high-quality paints and varnishes. To harden ready topcoat based on the acryl resin HQR and pigments should be applied hardener AT-100 PLUS [code: A-UP].

RULES OF CONDUCT WHEN APPLYING

To the resin pour the appropriate pigments which create paint colour and mix thoroughly.

STORAGE TIME AND CONDITIONS

Store in tightly closed containers, in a cool, dry place away from sources of fire and heat. Avoid exposure to sunlight. Expiration date: 12 months from date of manufacture - date on the top of container.

HEALTH AND SAFETY REGULATIONS

See Safety Data Sheet of the product.
