

TECHNICAL DATA SHEET
ADHESION PROMOTERThe identification code: E-PR
Line: EXLAK**PRODUCT DESCRIPTION**

Special additive increasing varnish adhesion to difficult substrates for example: aluminium.

USAGE

Additive designed for application with all types of solvent-based paints, increasing adhesion to substrates such as:

- aluminium
- steel
- galvanized steel
- stainless steel

MIXING RATIO

Amount of additive	Type of medium
3%	Application of additive consists in pouring it into paint and mixing in an amount of 3% of the total weight of varnish, hardener and thinner (in case of two-component varnishes).
Example:	1000 ml of paint + 500 ml of hardener + 100 ml of thinner = 1600 ml $\text{Amount of additive} = 1600 \text{ ml} * 3\% = \underline{48 \text{ ml}}$

STORAGE TIME AND CONDITIONS

Store in tightly closed containers, in a cool, dry place away from sources of fire and heat. Avoid exposure to sunlight. Expiration date: 12 months from date of manufacture - date on the top of container.

HEALTH AND SAFETY REGULATIONS

See Safety Data Sheet of the product.

SPECIFIC WEIGHT

About 1.0 g/cm³
